- Emotional Well being
- Relaxing fun time
- Enables smooth transition to pre-school

# ACTIVITIES

Creative  
Development

Fine Motor Skill  
Development

Gross Motor  
Skill Development

Language and  
Social Development

Sensory and  
Intellectual Development

The Program is designed to care for children in a small group setting with a trained mentor teacher and an assistant.

### **Creative Development**

Experiencing, discovering, experimenting and creating are the most important parts of creative play for toddlers at our centre.

To foster creativity and creative thinking from the beginning, many hands on activities are planned where parent and child are engaged in experiences together.

At our centre, we encourage toddlers to express feelings using colour, movement, mime, dramatic gestures, singing or dancing.

### **Fine Motor Skill Development**

Children acquire fine motor skills through the use of specially selected manipulative.

### **Gross Motor Skill Development**

Children have opportunities to move purposefully throughout the environment to become more spatially aware and knowledgeable about the world around them. The environment provides for optimum gross motor activities both indoors and outdoors.

### **Language and Social Development**

The environment lends itself to the incorporation of language and the increase of vocabulary. Activities like music exploration and reading help build expression and communication skills.

### **Sensory and Intellectual development**

Materials such as blocks, obstacle courses, beads, shape sorters, stacking rings, clay and sand are set up to engage toddlers in sensorial activities which increase cognitive skills, and therefore help the child to think and reason.

# About

## RBK Educational Institutions

The 21<sup>st</sup> century RBK Educational Institutions started in 2000, under the patronage of Babubhai Kanakia Foundation, has earned a district reputation as one of India's premiere group of educational institutions in Mumbai and Gujarat.

Though, each of its schools has its own, specific goals and educational roadmaps, what unites them is their synergy with RBKEI's mission.

“A mother's greatest masterpiece is her children”

4.00 p.m. to 5.30 p.m  
(Mon | Wed | Fri only)

9 months to 1.5 years
